

omindex.txt

This member provides a cross-reference index for each Output Master V1R4M1 component that was modified by a PTF.

\*\*\*\*\*

PLEASE NOTE THAT OUTPUT MASTER V1R4M1 IS AT FIX LEVEL OM14014 BASE.

\*\*\*\*\*

```
-----  
Fix Number      Function  
-----  
OM14100         This zap to module X97FSEPR in csect X97FSEPR  
                 corrects a potential OC4 failure in the XIM  
                 Banner Page exit EXITDSIB in X97F.SAMPLIB by  
                 register 1 not pointing to the parameter list as  
                 specified.  
MODULES ** X97FSEPR/X97FSEPR          **  
MACROS  **                               **  
PREREQS **                               **  
-----
```
